

Vision and purpose driven life so that we do not perish

Vision and purpose driven life so that we do not perish.

My past, present and future paths and the drive we have to provide the very best possible for all of humanity removing the social conditioning imposed upon from birth both on a micro perspective and macro plan of success.

The greatest value we have is the human resource and its full potential. From slavery and bondage from social conditioning to the endless possibilities of a well educated and developed human society. We can and will become a marvel of wonder and excellence for all of the universe to view with joy and excitement.

My journey in my path started in 1999 when I was operating an asset management firm in Northern California. At the time I did have a significant client portfolio and did well with large sums of working capital in unique trust facilities. A new potential client approached my office with a significant asset base of AU Metal. It was very significant and we set up a meeting in San Francisco California with lunch at Scoma's Restaurant then we visited the De Young and Legion of Honor Museums where we sat in a quiet location to discuss the assets for management placement.

At that meeting we discussed the assets, viewed the actual photos of the AU Metal, location and logistics for the placement and use of the assets. I also shared assets under management in the amounts of Fifteen Billion and Eighty Five Billion and more. One of the largest client files I accepted was the Pringondingo assets of very large Gold and Platinum holdings of Hundreds of Metric Tons of these holdings. This I believe intrigued the new clients we were meeting with the new portfolio presented.

As we continued our discussions, they startled me with the truth of their visit and presentation. They notified me that they were Elder representatives. One from Hong Kong and the other from Taiwan. They stated that they worked for the head elder, a woman who was very old yet seemed very young in appearance. She had special abilities and could see into the future or travel to the future? In her vision she described my life in detail over the span of 30 years.

She told the representatives to share some things with me and to respectfully request my attention and dedication to important matters to improve humanity for its true potential.

I was amazed to learn that I was being given an account for the asset management of Eight Hundred Trillion United States Dollars? Furthermore, I was tasked with providing a very low interest loan to the United States Government of Two Hundred Trillion by 2001 to clear the USA of all debt obligations globally. Now back in 1999 the Global Money Supply M1-M6 was only 563,705 Billion and Trillions in global debt instruments. How can 800 Trillion even exist?

Vision and purpose driven life so that we do not perish

After obtaining the required banking documents, account access passwords and protocols with my normal document requirements for asset management I started my due diligence on the account and signatories accordingly. I had contacted some of my special high level agency friends with national security and some at the state department in Washington DC. I needed to know if the account was real and if I provided the backdoor pass codes would they access the account for verification of the funds in the account. The account was based in HSBC London and after they proceeded with validating the account and funds therein, I got a report from the main contact of my request. He was nervous and stated that he was being called in for questioning for his backdoor access to the account. My response was what is with the cloak and dagger issues? He stated that it was an Elder account with positive funds on deposit in the amount of Four Quadrillion US Dollars! Oops, cat is out of the bag! Now I was overwhelmed with new knowledge that all I have learned in my studies of finance at the Universities were false and that there is more to Global Finance than I was aware of.

I contacted those I was connected to at the State Department to proceed with the offer to loan the United States Government with the loan offer but waiting until there was a republican official President Bush in office. So the offers were being planned for 2001 and I had been working with the elders for two years of planning not only to place Two Hundred Trillion for the United States to truly be free from all debt but also to plan and develop the Green Mega Cities, Communities and Resorts for nations all across the globe with my understanding of Bond Finance and Asset Management. Therefore, the Six Hundred Trillion of the Eight Hundred Trillion was set aside for assets under Custodial Protocol and the world was to enter a new phase of growth.

Why wait two years to get started when the funds are readily available now in 1999? As explained by the Elders, there was a treaty that was to expire September 2001 for the return of all assets placed with the Global Leaders including the United States and the United Kingdom as well as the Vatican who were all controlled by oligopolists like the Venetian Bloodline Families. Ok, that seems ok and I am a proud Army and Navy Veteran very patriotic to the republican party and it works for me being that we will have a Republican voted into office (Bush Jr.) in 2001. In August 2001 I was stopped from doing anything further on the asset account at HSBC London and that any and all bank officers, State Department contacts and anything to do with the account were off the table.

My access and contact to the entire proposition were stopped cold. I was shut out and the assets frozen from my access completely. Then many other things came up and sabotage to my asset management company started. I was told to cease and desist operations and shut down my firm. I was advised that if I did not that I was a target for termination (Assasination) by the CIA. Why did this come about? Well a combination of things led me to believe at the time that it was my Vice Chairman of the firm at the time who had been dealing illegally with the firm assets. Turns out he had his attorney that was the custodian of the actual gold and platinum certificates from the Pringgondingo client account, sold to third parties representing special interests of UBS bank in Switzerland. Prior to this I had been negotiating for settlement on the assets with Agents of UBS but was being framed for blackmail while in Switzerland for the very same Gold and Platinum Certificates.

Vision and purpose driven life so that we do not perish

When I discovered the plot I departed Switzerland and told the UBS Agents that negotiations were indefinitely cancelled. However, back in Victoria Canada the Vice Chairman plotted against me and sold the Gold and Platinum certificates for Two Million Dollars each to a third party representing the same UBS agents group without authorization.

Then the Vice Chairman placed other client assets into Trade with people tied to Black Operations using the funds derived from trade for financial support of planned black operations. This was all illegal commingling of funds and I objected and stopped a;; transactions. That is when my life was threatened and told to back off and permit the illegal use of client funds. I responded with willing to do the right thing or die trying. At the time I was in great shape with no fear but lacking wisdom as the threat was real and a danger to not only myself but my wife and baby son as well. It was not until one of my associates with NSA reached out to me to advise me that we need to meet asap to discuss the real danger ahead of me.

So I drove to a secure meeting location three hours from my home and had a very real serious discussion of events about to happen. In order to avoid what was coming I was given a set of instructions to bypass any problems. Basically, I was ordered to shut down the company BHSC Securities Corporation, go back to school to pursue a JD, MA and Ph.D and just forget about that business for now. Cancel all 212 client asset management agreements and release all assets back to the clients asap. Then all actions against me would disappear.

Well I did as requested, had my fax machine sending out all of the cease and desist documents and cancellation of the asset management agreements. Had a great deal of clients very upset and financial sorrows with it. But I obeyed and that was that. I did file formal complaints with the Law Enforcement Authorities in Canada against the Vice Chairman to clear my good name from any of his extracurricular illegal activities.

I reported all this mess to the Elders and to my surprise they all saw it coming? They knew all this would happen but it was part of the events to come as they know everything about my life 30 years forward. They stated I should move forward with my studies in Law, Economics and Behavioral Management and Leadership. Also that I would later engage in Culinary Arts, Digital Cinematography and a new JD in entertainment Law. All of which has happened and continues to take place in my life.

The logic and understanding was that through time I would be able to be better prepared to engage and defeat all of the enemies of humanity with the true knowledge and understanding of all the weapons against humanity of the enemy. This will permit me to better engage and defeat the enemy using and leveraging the very same tools or strengths against them.

In preparation, with the knowledge and understanding I have prepared the plans and actions needed to dismantle the strength of the enemy and to empower humanity with all that is needed to lead everyone into becoming and being excellent in all areas of their lives.

Vision and purpose driven life so that we do not perish

From previous postings of documents with Charlie Ward and Team of Influencers I have shared the plans for the QFS digital Monetary System and supporting technology, I have introduced the Green Mega Cities, Communities, Resorts and Industrial Parks with related technologies and innovations.

Remember the information regarding the large Four Quadrillion US Dollar account with my authority to manage the Eight Hundred Trillion of those funds for the prosperity of Humanity. Well I discovered ten years later that those funds were blocked and traded in a Evergreen Trade investment program and have been in managed trade for about 20 years now. The balance of those funds are now googleplex with over 2000 zeros. I have ascertained much more is assets under management than this under Custodial Protocol Agreements and Master Securities Agreements for the creation of all funds needed now to get this all started and completed while we are all living.

I discovered those funds traded in my personal name all this time and that the only reason I was not terminated after following and obeying orders back in 2000-2001 was that if I was dead the trades would stop. The other reason I remained alive was that I was never to access nor touch those funds. If I did I would be terminated! But that was when my enemies were alive. I am pretty sure they are all now dead thanks to the White Hats and the clean up of the Cabal traders who have murdered so many in most countries for selfish motives.

It also turns out that in 2001 the 911 attacks were planned by Bush Sr on Bush Jr watch so that the treaty agreement could not be closed and NESARA not enacted. While President Clinton was in office he signed NESARA by executive order with Special Forces ensuring that the treaty execution date would be honored and Elder assets returned back to the Elders such as that Four Quadrillion US Dollar account at HSBC London that was blocked denying my access and use. You see it all ties together, all of the deceit, murder of approximately 30,000 Americans on 911 not 3000 and a false war upon other nations with the destruction and loss of lives from all nations for what? To be led to the slaughter house with unwanted poisonous vaccinations on planned genocide of humanity by the very same agents of the oligopolists who have been manipulating humanity for the last 200 years or more.

Not on my watch, not in my life, not while any person is awake with truth and can breathe. We all must respect what God has given us. Life Liberty and the right to pursue a life of happiness. No victory comes without action and we will win the battles with knowledge and understanding, discipline, action, physical, personal and professional excellence. We have vision and purpose, the result will be overwhelming joy and peace, prosperity and the love of God upon all people.

God Bless You,

Man of God
